FEATURED CASE STUDIES

Puranik Builders Group			Real Estate · India puranikbuilders.com
Service: Multi-Site Web Design (6 Sites)			■ puranikbuilders.com
CHALLENGE	SOLUTION	RESULT	
Maharashtra's largest developer needed a unified presence across 6 distinct residential projects simultaneously — each needing its own brand, audience and sales funnel.	6 microsites under a unified brand architecture — consistent navigation and shared enquiry system, unique visual identity per project. Built in parallel in a 3-week sprint.	■ 300% increase in online enquiries within 90 days. All 6 sites ranking page 1 for respective keywords.	

Kanakaveda International			Ayurveda / Wellness · India kanakaveda.com
Service: 3-Website Ecosystem			■ kanakaveda.com
CHALLENGE	SOLUTION	RESULT	
A premium Ayurveda brand needed 3 distinct websites — India retail, international export, Ayurveda-specific — each serving completely different audiences.	3-site ecosystem with shared design language but independent content strategies. International site optimised for 5 export target markets.	■ Successfully entering 5 international markets. International enquiries grew from 0 to 40+ per month within 6 months.	

Capitalia Network			Fintech · Europe (EU) capitalia.network
Service: International Website + V2 Rebuild			■ capitalia.network
CHALLENGE	SOLUTION	RESULT	
A European fintech platform needed a world-class presence built to EU standards — GDPR compliant, performance-optimised, multilingual-ready. Fully remote client.	Custom fintech website to EU design and compliance standards. Client expanded to Capitalia V2 — a full rebuilt version — within 6 months.	■ Operational across EU markets. Site scores 95+ on Google PageSpeed. Client relationship extended to V2 rebuild.	

GeeBee World Education

Education · India
geebeeworld.com

Service: Lead Gen Website (3+ Year Partnership)

geebeeworld.com

CHALLENGE	SOLUTION	RESULT
One of India's top overseas education consultants needed a conversion-focused website handling thousands of monthly enquiries — with ongoing evolution.	Conversion-optimised website with destination-specific pages, integrated lead forms, WhatsApp routing and ongoing SEO over 3+ year partnership.	■ Website handles 1,000+ monthly enquiries. One of D-Tech's longest-standing client relationships.

MerryMunchiez

B2B Frozen Food · India
merrymunchiez.com

Service: Full Website Rebuild — 157 Files

merrymunchiez.com

CHALLENGE	SOLUTION	RESULT
A premium frozen food supplier to Taj Hotels, Hyatt and Hatti Kaapi needed to replace a bloated WordPress site — including full rebrand from prior brand name.	Scrapped WordPress. Custom PHP/HTML/CSS stack with Google Sheets CRM, GA4/Clarity/Meta Pixel, AI proxy. 82 product images extracted from PDFs via Python.	■ 157 files delivered including 82 product images. Complete rebrand executed. Significantly faster than original WordPress site.

Pro-Ortho Perfect India Pvt. Ltd.

Healthcare / P&O; · India
pro-orthoindia.com

Service: Custom 6-Phase Laravel ERP

pro-orthoindia.com

CHALLENGE	SOLUTION	RESULT
Prosthetics & orthotics business with 3 divisions (retail POS at 5 locations, custom manufacturing, B2B spare parts) needed a unified ERP replacing Excel sheets.	6-phase Laravel ERP covering RBAC, inventory, patient records, offline POS, B2B distribution, TallyPrime connector. Appointments, referrals and KPI modules included.	■ Complete 6-phase ERP stabilised and delivered as cPanel-deployable package. Client migrating from Excel to unified platform.

SuperHuman Sportz / Battleground

Combat Sports · India
superhumansportz.com

Service: Website + PHP/MySQL Backend

■ superhumansportz.com

CHALLENGE	SOLUTION	RESULT
A combat sports brand (MMA, Muay Thai, boxing) needed event listings, fighter profiles, results and a full backend for management.	Built frontend and complete PHP+MySQL backend. Asset optimisation, performance improvements, Google Analytics + Search Console setup.	■ Live at superhumansportz.com — fully operational with event management backend.

Superhuman Gym, Powai

Fitness · India
superhumangym.co.in

Service: Website + Local SEO — 7-Day Launch

■ superhumangym.co.in

CHALLENGE	SOLUTION	RESULT
A premium fitness studio in Powai, Mumbai had zero online presence — no website, no Google ranking. Losing clients to competitors daily.	Conversion-first website with membership enquiry, class schedule, trainer profiles and Google Business Profile. Launched in 7 days.	■ 8-10 new enquiries/month from Google within 6 weeks. Investment recovered in month 1. Now ranking for 'gym Powai'.

AI-POWERED TOOLS & CUSTOM SOFTWARE

Beyond websites, D-Tech Enterprises builds custom AI-powered tools and software using Python, Laravel, Flask, Claude API and SQLite/MySQL.

GeM + TED Europa Tender Monitoring Tool

AI-Powered SaaS Tool

Stack: Python · Claude API (Anthropic) · Flask · SQLite · Docker · systemd

Automated tender scraper and monitoring platform covering GeM (India Government e-Marketplace) and TED Europa (EU procurement). Uses Claude API for AI relevance scoring — filtering thousands of daily tenders to only those relevant to the user's keywords.

Automated scraping of GeM India + TED Europa • Claude API relevance scoring per keyword set • SQLite database with full tender history • Email digest — daily/weekly relevant alerts • Flask web dashboard for management • Docker + systemd deployment ready • Phased architecture: scrape → score → notify → dashboard • Designed as subscription SaaS tool

Pro-Ortho ERP — Custom Healthcare ERP

Enterprise Software

Stack: Laravel 10 · PHP 8.2 · MySQL · Livewire · Alpine.js · TallyPrime Integration

Full 6-phase custom ERP for Pro-Ortho Perfect India Pvt. Ltd. — a prosthetics & orthotics business with retail POS (5 locations), custom manufacturing (BOM-based) and B2B spare parts. Patient clinical records, appointments, doctor referrals and TallyPrime integration.

Phase 1: Foundation — RBAC, multi-user, audit logs • Phase 2: Inventory & Purchasing with BOM • Phase 3: Patient Records + Manufacturing workflow • Phase 4: Offline-tolerant POS (barcode, multi-payment) • Phase 5: B2B Spare Parts distribution • Phase 6: TallyPrime connector (HTTP/JSON/XML) • Appointments, referrals, leads, KPI reporting • cPanel-deployable with full installation guide

Mauritius Constituency Service Platform

Civic Tech — PWA

Stack: PHP · MySQL · Progressive Web App · cPanel · Mauritius DPA Compliant

Civic issue reporting and tracking platform for a Mauritius MP — allowing verified constituency residents to submit issues, track resolution and receive updates. Designed to scale from 1 MP to a full national constituency network.

Constituent registration (constituency-gated) • Issue submission: category, location, photos • Status tracking: Open / In Progress / Resolved • MP dashboard for issue management • PWA — installable on any mobile • Mauritius Data Protection Act compliant • Scalable to multiple MPs & constituencies • Works on standard shared cPanel hosting

MerryMunchiez AI Proxy + Analytics Stack

AI Integration + Analytics

Stack: PHP • Claude API • GA4 • Meta Pixel • Microsoft Clarity • Google Sheets CRM • Python/PyMuPDF

PHP-based AI proxy endpoint protecting an Anthropic API key, paired with a full B2B lead-tracking analytics stack for a premium frozen food supplier (clients: Taj Hotels, Hyatt, Hatti Kaapi).

PHP API proxy securing Claude/Anthropic API key • Google Sheets CRM — automated lead capture • GA4 + Meta Pixel dual tracking setup • Microsoft Clarity heatmaps + session recording • WhatsApp as primary conversion channel • 82 product images extracted from PDFs via Python • 157 files total delivered • Complete brand migration executed
